Title: "Tom Company" company card has Invalid Date

Description: The company card for "Tom Company" has an invalid date, making it impossible for users to determine the accurate date of creation or last update for the company card.

Steps to Reproduce:

1. Go to http://localhost:3000/

2. Search for "Tom Company" in the company search box.

3. Look for the date field on the company card.

4. Note that the date is displayed as "Invalid Date".

Expected Result: The date field on the "Tom Company" company card should display a valid date, indicating the date of creation or last update for the company card.
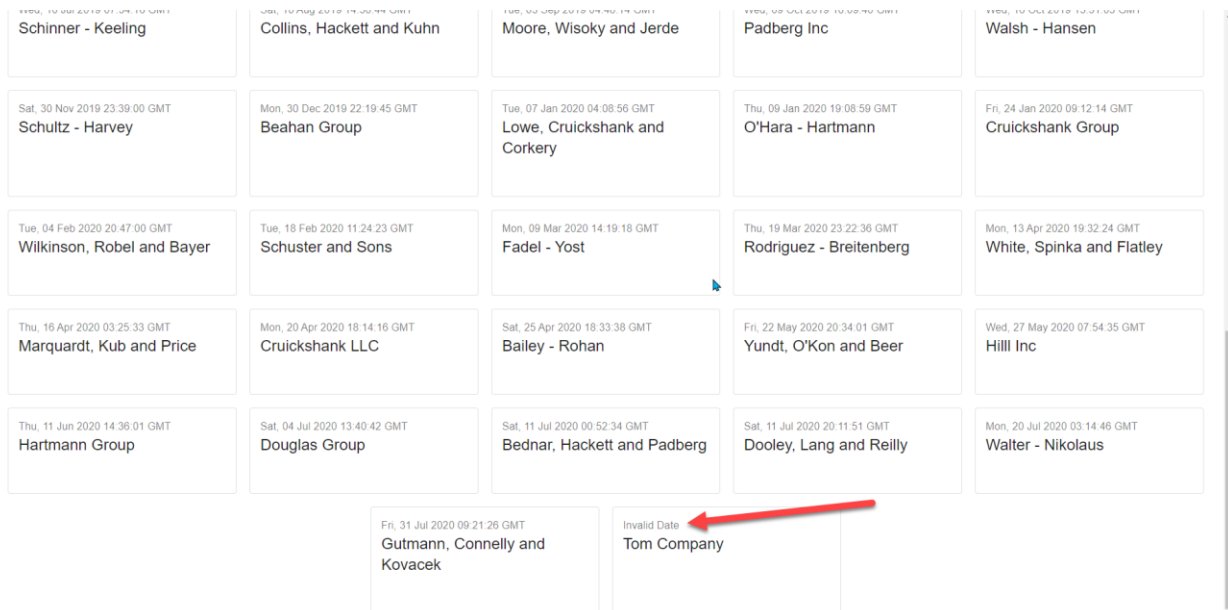

Actual Result: The date field on the "Tom Company" company card is displaying as "Invalid Date".

Severity: Medium.

Environment:

- Browser: Chrome, Firefox, Safari, Internet Explorer

- Operating System: Windows
